

Standard Operating Procedure 32

Jack's Valley Fire Station Operations

- The Jack's Valley Fire Station will be staffed 24 hours a day by two firefighters during Basic Cadet Training (BCT)
- Prior to BCT, the following equipment will be pre-positioned at the Jack's Valley fire station:
 - Refrigerator
 - TV/VCR with antenna
 - Sleeping bags/linen
 - Microwave
 - BBQ grill
 - Portable radio with spare battery and charging unit
 - Sun block/insect repellent
 - Hydrant and area map of Jack's Valley
- Assigned firefighters will report directly to the Jack's Valley Fire Station for 0730 hours shift change
- A brush truck will be used for fire protection
- PPE will consist of structural and wildland gear, and Self Contained Breathing Apparatus
- Medical gear shall be sufficient to provide basic life support
- The Fire Net will be monitored 24 hours a day; dispatch will be notified of all vehicle movements
- The Jack's Valley firefighters will respond to any report of fire or emergency in Jack's Valley
- If a burning tent is *not* of hardback construction, all ropes will be cut prior to fire attack
